Mr. E. D. Miles of Paradise was in Logan Saturday.

The Cache Stake S. S. Union will hold its meeting at the B. Y. C. Sunday, Sept. 28th at 4:30 p.m.

Miss Eva Knox has resumed her position as cashier at the U. O., after an illness of two or three weeks.

Mr. C. E. Thorstensen, manager of the Salt Lake Knitting Works, was in Logan first of the week on business.

Mr. C. M. Harris, of the Harris Music Store, is in northern Utah and southern Idaho on a canvassing trip.

Secretary of State Hammond was in Logan Saturday and Sunday. He came up to attend the funeral of Mrs. W. W. Maughan.

The titling office has cut off its merchandise department, and instead of the old method will give orders on the various mercantile houses.

Hans Nielsen has bought of Zeph Thomas a frame dwelling on West Center, the second below the Presbyterian church and is having it repaired.

Mrs. Ray L. Davis of Preston came down Sunday to spend a day or so with her daughter, Miss Hazel Davis, who is attending the New Jersey Academy this year.

Look up Mr. H. G. Hayball's ad. He is offering some exceptional bargains. The rapid rise of this establishment in the business world is ample proof of its popularity and fair dealing.

Mrs. Katherine Hibbard has been quite sick for a few days with what threatened to be typhoid, but at this writing she is improved and will probably be entirely recovered within a short time.

Mr. P. M. Maughan secretary of the A. C. has a new assistant in the person of Miss Carrie McAllister, who has been recently appointed. Miss Ella Maughan, former assistant, will teach a class in typewriting this year.

The Spande Furniture Company's business has grown to such an extent that it has been necessary to rent the Amussen room on Main street. They will occupy it immediately in conjunction with their Center street establishment.

Banker and Mrs. A. M. Flemming spent the latter part of last week at Salt Lake visiting, returning Sunday. While there they strolled around to "The Strollers" and said that company was good, but that "The Stow-away" should be stowed away forever.

Friends of H. J. Christiansen should not forget the benefit that has been arranged for him, to take place at the tabernacle Friday evening September 26th. An excellent programme will be rendered at that time and a collection taken. Mr. Christiansen will leave for Scandinavia on a mission about October 1st.

Miss Lulu Carpenter has returned from her summer vacation and resumed her duties as librarian at the B. Y. During the summer she took a course at Amherst and visited relatives in Connecticut. Miss Carpenter is one of the most popular of the B. Y. heads of departments and her many friends are glad to see her again.

We understand that Supt. Merrill of the city schools will within a short time erect a handsome residence on the vacant lot south of Judge Hart's home on North 4th East street. Also that Prof. Ostein of the A. C. has bought the lot at the intersection of East 2nd North and the boulevard and will put up a residence as soon as possible.

Miss Lottie West is considering the idea of putting in a tennis court on the lawn at the West mansion, Center street, and has gone in for a systematic study of the rules of the game. Persons in passing who may hear "Love all"—"15 love"—"30 love"—"love 15"—"love all"—"40 love"—"deuce"—"vantage in"—"game"—issuing from the West parlor will please remember that it is Miss West seeking to fix upon her mind the points of the game, and not a rehearsal of any sentimental affairs.

Miss Emma Hattman of Freeport, Ill., is visiting with her uncle Mr. George Fister.

Mr. and Mrs. John Wilks of Fort Steele, Wyoming, are in Logan, the guests of Mrs. Hibbard. Mr. Wilks is Mrs. Hibbard's son.

Mrs. N. Hanson, daughter of Mrs. Hiram Merrill, deceased, came over from Paradise Saturday to be at the death-bed of her mother.

Mrs. J. E. Thompson returned to her home in Salt Lake Tuesday after a six weeks visit in Logan with her son, Mr. A. H. Thompson, and family.

Jas. Quayle & Co. are offering bargains in shoes that are worth the attention of the public. Look up their ad. on the 4th page. Cut out the coupon and use it.

H. A. Pedersen, the popular real estate and insurance man, was down about Bingham last Wednesday and Thursday looking after some mining interests. He brought back with him some elegant specimens of gold and silver ore.

Mr. G. W. Thatcher, Jr., treasurer of the "Corianton" company, came up to Logan Friday to see his father before rejoining his company at Kansas City. Mr. Thatcher expressed himself as being certain of the company's ultimate success providing the proper advertising is done. He left for Kansas City on Saturday, accompanied by his wife.

After two weeks "The Journal" has awakened to the knowledge that The Republican is in existence. This is in line with its usual Rip Van Winkle lethargy. Come to think about it though, the attention came from Marshall and he is not a part of The Journal—merely writes locals for it occasionally. Marshall is too good a man to belong to that institution.

Runaways on Main street have been quite frequent of late, no less than three occurring in one day. Persons driving teams and leaving them standing without being securely tied are guilty of criminal carelessness and should be looked after. Fortunately but little damage has been done, but there is great danger of serious injury or loss of life in just such things. It would be much better if some provision were made so that it would be unnecessary to leave teams hitched to farm wagons and buggies standing on Main street at all. In summer the offensive stench resultant is enough to arouse the health department to action.

Mr. E. C. Bacon, editor of the Ouray Herald, is in the city on a visit to his brother, Mr. E. P. Bacon of the Hercules Company. Mr. Bacon called on the Republican and commended us on the appearance of the sheet. Mr. Bacon is a newspaper man of considerable experience and his Herald shows the guiding hand of a master. Editorially it is as bright as a new dollar and typographically is as pretty as anything that comes out of Colorado. He is in a town of but 2,500 and with a competitor, but is able to use good book paper and 37 cent ink in the publication of the Herald. This is newspaper business that is delightful both to himself and his constituents.

Banker Fleming has just wound up a two weeks vacation, the first taken in four years. In line with Teddy and all the big, energetic fellows he did the strenuous thing. With his son Charles and Mr. Goodwin he made a trip up around Soda Springs and through Gentile Valley, returning to Logan in about ten days. According to Charley, they were up at 5 a.m., off on their ride at 6 and continued it until 8 p.m., each day. Charley had a gun along but the only time he got to shoot it was when he would poke it out of the back end of the wagon and blaze away. They passed through Fish Haven but didn't even see the lake and there is a tendency to believe that the only soda Mr. Fleming saw was a box of the "Arm and Hammer" brand in a certain show window at Bloomington or St. Charles. "Around the world in eighty days" may be a great feat, but we'll wager that with a little more practice in globe trotting Mr. Fleming can do it in six-three. Charley begs to be excused next time.

A weekly shipment from Logan of 150 crates of eggs is not so bad when it is considered that Cache county farmers are interested in practically nothing but wheat, beets and cattle. 150 crates at \$4 per crate means \$600 worth of hen fruit.

Chas. La Fount left for Chicago Sunday to enter the Northwestern University. He will remain four or five years, possibly returning during his second year's vacation to take charge of one of our local dentistry during the summer. Charley is a bright young fellow and his rise is certain.

At the delightful home of Mr. and Mrs. J. E. Shepard on South Main street last Friday evening there was a pleasant gathering of family relatives in honor of Mrs. Shepard's birthday. The evening was spent very pleasantly in games and such other pleasures as are usual on such occasions. Refreshments were served.

When it is considered that the local sugar plant pays out about \$240,000 a year alone, the importance of the institution to Cache Valley farmers is seen to be immense. Nor is this of great importance to the farmer alone; the business men of Logan and surrounding towns eventually get the largest share of this \$240,000—consequently it is an immense factor in the success of their business. \$240,000 a year is equal to any manufacturing employing three hundred men and paying out \$20,000 monthly, the only difference being that the money is put into fewer pockets. One farmer up the line has about 40 acres of beets averaging 23 to 25 tons per acre and this at \$4 a ton will give him about \$3,700 for his beet crop. This is not so bad for one man, and as he himself expressed it, "one who has spent all summer visiting." Just at present the beet traffic is hardly as large as of other seasons for the reason that the crop is late. The different spurs up the line are sending in twelve or fifteen cars a day, but in a short time twenty-five and thirty will be the usual thing.

The other day we had the pleasure of talking with Mr. Barnard White of Ogden for quite a time. Being one of the earliest settlers in this part of the State he told us much of the early history with which we were not acquainted before, and proved an interesting talker along various lines. In speaking of Dayton, Ohio, Mr. White said that he was very familiar with the city, and especially the Soldiers Home located there. He was shown through the institution by the Governor of Ohio at the time he was there, and said that his opinion of his government went up several notches after an inspection of that grand place—and that but voices the sentiment of practically every man who goes through it. The soldiers quartered there have palaces to live in, every conceivable convenience, everything for their comfort and pleasure and with nothing to do but enjoy it. Uncle Sam keeps his wards as becomes the service they rendered. "The only bad feature about the institution," said Mr. White, "is that there is little incentive to any active life, or any life at all for that matter. Everything is provided for them—they get their ration of beer and whiskey every day, can go to a theater right in their own building, can go and row when they want to, have tobacco and cigars, all the literature worth reading—in fact all that could be desired except some incentive, and this shows in the number of deaths too, let me tell you. Whenever a comrade dies, it is not an uncommon thing for several suicides to immediately follow—the others don't want to break the association formed and prefer to die and follow their dead comrades." Mr. White has business interests in Ogden and also runs a model farm at Paris below Brigham.

THE OLD
 WAY and
 THE NEW

Call and See our New Line of

The Royal Bread of Salt Lake for sale by P. A. Nielson & Son.

The best place for light and heavy shoes for Ladies, Gentlemen and Children; also first-class repairing at Andreas Peterson.

The famous "Cosmos Pictures" are unequalled for elegance of finish and cheapness. A fresh supply of these beautiful reproductions of the world's noblest art just received at Wilkinson & Son's Book Store.

Another large shipment of Douglas Shoes has arrived at Andreas Peterson's. These shoes are made in the latest and very finest styles, fit easily and give very excellent service. When you are in the market for first class footwear then call and see them.

The Logan Republican Twice-a-week after Oct. 1st, \$2.50 per year. We want a correspondent from every locality in Cache county.

Mrs. Elias S. Kimball is very ill with typhoid and at last reports her life was despaired of.

This office is indebted to Mr. and Mrs. N. E. Clemenson for a generous supply of all that is good in the fruit line. The fruit was enjoyed but the kind remembrance is most appreciated.

Mr. Joe Baliff and Miss Florence Squires are to be married next Thursday at the Temple, Salt Lake City. Joe is a popular salesman at the Logan Dry Goods Co.'s store and Miss Squires is the charming daughter of Mr. John Squires. They have a host of friends who will wish them much happiness.

Those who who feel kindly disposed toward The Republican will please bear in mind that kindly thoughts and good words will not keep this institution going. It takes cash. The subscription price is but \$2.50 a year. That amount from anyone would hardly be missed but from everyone interested in having a good local paper would mean a great deal toward making the paper the success it is destined to be, with a little of the right kind of encouragement at this time.

The Danford-Heusser sparring exhibition at the Grove Monday evening resulted in a victory for Danford—that is, Heusser kicked on the decisions of the referee and in the sixth round threw up the sponge. There seems to be some doubt in the minds of the local sports as to who would have been the winner had the fight continued until there was a knockout. Although Danford is possibly a better built man and has a slight advantage in reach, it is said that Heusser had him in rather bad shape in the third round, and at the end of each round had the Smithfield man in such condition that he required considerable attention on the part of his managers. Heusser was in pretty fair shape when he quit and some have cried "fake," but it is generally believed that the fight was on the square. The kick on Heusser's part is said to have been on account of the referee not recognizing a regulation to the effect that in a clinch the men were to break clear. He claims that Danford took advantage of breaks in clinching to do work that was forbidden. The gate receipts were between \$600 and \$700, of which the winner got 65 per cent. "Ducky" Pace acted as referee and today wears a black eye, caused by a blow from Danford in the third.

Tomato Leaf-Spot and Muskmelon Blight.

The Ohio Experiment station warns tomato growers to be on the alert for tomato leaf-spot and to begin early in their measures for its prevention. The prevailing wet weather is favorable to this disease which may again prove as destructive as in 1898 and 1900. Spraying the plants with Bordeaux mixture at intervals of two to three weeks promises very large returns should such moist weather continue.

Gardeners and truckers are also warned to begin spraying for the downy mildew of muskmelons and cucumbers, should their plants promise to yield after the middle of August. Earlier spraying for this disease was not required, but from the present date forward, treatment should be made at intervals of 8 to 10 days if a late yield is anticipated.—A. D. Selby, Botanist.

The well-drained land will be easy to work after a froshet, and it will be also easy to work after a drouth. On well-drained land the roots of plants strike deeper than on poorly drained land. In the case of drouth the deep going roots sustain the plant through the crisis.

Hybridization of fruits has in it great possibilities for the future. The standard varieties of fruits are the raw materials from which men can create new and wonderful things.

Subscribe for The Logan Republican and assist a Cache Valley publication that will eventually be of much value to the entire valley.
